Forecast For Wales
Issued by Met Office Exeter
at 0400 on Sunday 17 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and mild with outbreaks of rain and drizzle.

Today:
A grey, cloudy start with outbreaks of rain and drizzle especially in the north and west, and foggy over the hills. It will brighten up in the south and east in the afternoon, but remaining dull and damp elsewhere. Maximum temperature 17 deg C (63 deg F).

Tonight:
Becoming dry for most this evening, with some clear spells for a time. However patchy drizzle returns later in the night, with only the far northeast still dry by morning. Minimum temperature 10 deg C (50 deg F).

Monday:
Generally cloudy on Monday with patchy drizzle during the morning. Some persistent rain will spread in from the southwest during the afternoon, with brisk winds developing along the coast. Maximum temperature 17 deg C (63 deg F).

Outlook for Tuesday to Thursday:
Unsettled over the next few days with spells of rain or heavy showers interspersed by some drier, brighter interludes. Often windy, particularly on Wednesday, but staying mild.
